Health and Medical Tourism to Kerala by expatriate malayalees

Gods Own Country..!!

Kerala is unique in the world tourism map for its natural beauty and cultural heritage. Kerala is ideally suited for medical tourism because of its moderate weather throughout the year, that is why it is called Gods Own Country.

Advanced hospitals with worldclass facilities in the modern medicine, renowned doctors specialized in major disciplines, trained para medical staff and technicians and international connectivity makes Kerala more wanted.

Apart from this, Kerala has its traditional medical systems like Ayurveda, Sidha, Naturopathy, Panchakarma, Kalari, etc. which have attracted patients from different parts of the world.

International medical tourism refers to cross-border travel made by people for medical facilities either to leverage costs back home or to avail quality treatment from medically advanced Nations.

Kerala enjoys definite advantages such as well developed tourism industry with its high quality resorts and hotels, comparatively low costs for packages of medical treatment, and ideal locations for a relaxing holiday.

Besides, high literate population in Kerala ensures the high standard of hygiene that is maintained already.

To Promote Health Tourism to India, GOI has taken an initiative - **The Govt Portal “healinindia.gov.in”** where you can find reliable information on accredited Hospitals, Specialist doctors and other services and is linked to the NABH website.

(Medical Value Travel Facilitator) Empanelment.

Special benefits for the facilitators include showcase of this NABH empanelment as part of their commitment to quality and patient safety. This would certainly build confidence to patients coming for treatment from overseas. MVTF centres in tier-1 cities where the healthcare facilities are good in our country will facilitate tie ups with hospitals to go for empanelment

- Established in 1989
- Bed Strength - 500
- Achieved NABH Accreditation in 2014.

Scope of development

- Explore the possibility of collaborating with star hotels, the rejuvenating Ayurvedha treatment centres and international travel agencies for promoting Health Tourism to Kerala.
- Presenting a better package to the Guest & Family coming for treatment.
- Introducing the guest to the wilderness of Kerala Nature and the diversity of our heritage along with treatment.
- Introducing latest technologies in treatment and services to minimize the delay in procedures and reduce the length of stay of the guest.

Thank you..!!
